

Alternative Preschool Placements

As required by ORC 3301-51-11 Preschool children eligible for special education (J)(1), in ensuring a continuum of alternative placements is available to meet the needs of children with disabilities for special education and related services, a school district shall annually prepare, post publically, and make available to parents during the evaluation process; a list of the available preschool education services options available in the community. This list shall not be limited to service providers within the geographic boundaries that may be more easily accessible to children with disabilities living within the boundaries of the school district. This list shall inform the discussions and decision on the appropriate placement of each child with a disability.

This list is not inclusive nor does the district propose placement or make a recommendation for a particular center.
